The Future of Children Journal: Focus on Preventing Child Maltreatment

If you've never checked out the Future of Children journals, you should. Start with their most recent volume on [Preventing Child Maltreatment](#). With up-to-date research on best practices, this volume covers prevention through intervention and serves as an excellent overview of critical issues facing child protective service professionals today. While there you can link to previous editions about *Juvenile Justice* and *Children and the Electronic Media*.
