

## **February 2006 Washington Update**

### **Future of Children Volume on Childhood Obesity**

The Future of Children will release its new issue, which will focus on Childhood Obesity, on March 14 th. This issue contains nine articles written by some of the nation's leading scholars on childhood obesity. They present evidence on the possible causes of childhood obesity, document the consequences, and suggest interventions that could stem this epidemic. The journal will be available at: <http://www.futureofchildren.org/>.
